

The Geneva School Drama Department proudly presents . . .

On behalf of the TGS Merely Players, let me thank you for your willingness to look into purchasing an ad to support our program. The Merely Players is a program that operates from funding provided by The Geneva School, along with participation fees collected from the actors. Even with this assistance, the program still costs more to run than is raised through tuition and contributions. Therefore, students must augment the operating costs through ad sales. During performances, audiences are given a program that highlights our show, our cast, our staff, and many advertisements from local businesses like yours. Each year we are thrilled with the amount of support we receive from the local community. Thank you for your time and generosity. Please feel free to contact me with any questions at LDHines@genevaschool.org.
